Successful Work Parties!

By Barbara Allen

Wow! What an amazing group of dedicated volunteers this year! Both work parties were hugely successful. The spider victim bodies were hung; front lawn graveyard decorated and Steve single-handedly created a giant spider for the lawn! Many thanks to all you volunteers who showed up and helped move the very heavy spaceship to its new location. Things are really coming together and we are all looking forward to Halloween night and putting on a great haunted house for all our victims...I mean trick or treaters.

Work Parties

More work needs to be done and we are hoping the Boo Crew can help on Wednesday, Oct. 26, Saturday, Oct. 29 and Monday, Oct. 31. Also, if all volunteers could please bring a bag of candy to any of the work parties, it would be greatly appreciated. Also bring anyone you know who might be interested in participating.

2011 Haunted House Floorplan

The following is the Haunted House configuration for this year. We will again have trick or treaters enter through the front door and exit through the back of house. The number in floorplan represents where volunteers will be located in the house. This year we are also going to give out whistles to each volunteer to be used in case there are some trick or treaters causing problems inside the haunted house. If a whistle is used, those causing the problem will be escorted from the haunted house. Also, trick or treaters will only be allowed through the house once unless they are accompanied by a parent. Please show up on Monday no later than 4:30 pm to get into costume. We are opening the doors at 5 pm and plan to scare until 8:30 pm. Let's make this a very scary and safe Halloween for everyone! Thanks again to all of you for making this possible.
